

# GENERAL INDEX TO VOLUME XLVIII

New scientific names of plants and the final members of new combinations are printed in bold face type; synonyms and page numbers having reference to figures and plates, in *italics*; and all other matter, in ordinary type.

## A

- Achyranthes*, 22; *altissima*, 19; *argentea*, 24; *aspera*, 23, 24,  $\beta$  *indica*, 24, [var.] *simplex*, 24; *corymbosa*, 105; *balimifolia*, 42; *birtiflora*, 27; *indica*, 24; *laguroides*, 44; *lanata*, 34; *lebmannii*, 45; *linkiana*, 21; *mexicana*, 45; *mucronata*, 41; *obtusifolia*, 24; *panamensis*, 45; *phloxeroides*, 43; *polygonoides*, 40; *prostrata*, 25; *radicans*, 41; *repens*, 41; *sicula*, 24; *stenophylla*, 44; *vermicularis*, 36; *williamsii*, 43
- Acithea*, 276
- Adenarium*, 91
- Adenogramma oppositifolia*, 39
- Adenonema*, 97
- Agatbophytum*, 2
- Aizoaceae of Panama, 80
- Albersia*, 13; *gracilis*, 14
- Allagantbera forskalii*, 39
- Allochlamys*, 9
- Alsinantbe*, 91
- Alsinanthus*, 91
- Alsine*, 90; *molluginea*, 194
- Alsinella*, 91, 97
- Alsinopsis*, 91
- Alternanthera*, 38; *achyranth.*, 41; *amoena*, 41; *asterotricha*, 42; *bettzickianna*, 41; *crucis*, 42; *denticulata*, 39; *ficoidea*, 41; *ficoidea*, 40, var. *flavogrisea*, 42,  $\gamma$  *balimifolia*, 42; *flavogrisea*, 42; *halimifolia*, 42; *laguroides*, 44; *lebmannii*, 45; *linearis*, 33; *mexicana*, 45, 46; *nodiflora*, 39; *panamensis*, 45, 46; *paniculata*, 34; *paronychioides*, 40; *parviflora*, 41; *phloxeroides*, 43; *polygonoides*, 40, *polygonoides*, 41,  $\beta$  *glabrescens*, 41; *repens*, 41; *sessilis*, 39; *stenophylla*, 44; *tenuissima*, 39; *triandra*, 39; *versicolor*, 41; *villiflora*, 41; *williamsii*, 43
- Amaranthaceae of Panama, 6
- Amaranthus*, 11
- Amaranthus*, 12; *albomarginatus*, 14; *californicus*, 14; *caracasanus*, 18; *carneus*, 14; *chlorostachys*, 16, var. *hybridus*, 16; *cruentus*, 15; *diacanthus*, 18; *dubius*, 16, 17, C *flexuosus*, 16, D *leptostachys*, 16, B *xanthostachys*, 16; *dussii*, 15; *flavus*, 15; *gracilis*, 14; *hecticus*, 16; *hybridus*, 16, subsp. *cruentus*, 15, var. *hypocondriacus*, 16, 2 *chlorostachys*, 16, [var.] *paniculatus*, 15; *hypocondriacus*, 16, incom-
- tus*, 16; *lactus*, 16; *paniculatus*, 15,  $\beta$  *cruentus*, 15,  $\alpha$  *purpurascens*, 15; *parisensis*, 15; *purpureus*, 12; *retroflexus* var. *chlorostachys*, 16, var. *hybridus*, 16; *sanguineus*, 15; *speciosus*, 15; *spinosus*, 18, II *basisicissus*, 18, I *circumscissus*, 18, III *indebiscens*, 18, [var.] *pygmaeus*, 18,  $\beta$  *purpurascens*, 18,  $\alpha$  *rubricaulis*, 18,  $\beta$  *viridicaulis*, 18, f. *inermis*, 18; *strictus*, 16; *tristis*, 16,  $\gamma$  *flexuosus*, 16,  $\delta$  *leptostachys*, 16,  $\beta$  *xanthostachys*, 16; *viridis*, 14
- Amarantoides*, 47; *globosus*, 49, [var.] *albiflorus*, 49
- Amblogyna*, 12
- Ambrina*, 2; *ambrosioides*, 5; *andicola*, 5; *anthelmintica*, 5; *chilensis*, *denudata*, 5
- Ammodenia*, 90
- Ancistrocarpus*, 73
- Ancistrostigma*, 82
- Anemopsis californica*, 107, 109, 110, 113, 119
- Anisophyllum dentatum*, 338
- Anserina*, 1
- Anthyllis*, 104
- Aphanatbe*, 73
- Arctium lappa*, 295
- Arenaria*, 90; *alsinoides*, 92; *confusa*, 93; *diffusa*, 92; *guatemalensis*, 93; *jussiaci*, 92; *lanuginosa* subsp. *guatemalensis*, 93, 94, subsp. *lanuginosa*, 92, subsp. *saxosa*, 93, var. *longipedunculata*, 92, [var.] *diffusa*, 92,  $\beta$  *diffusa*, 92,  $\alpha$  *genuina*, 92; *leptophylla*, 208; *mearnsii*, 93; *molluginea*, 194; *memorosa*, 92,  $\beta$  *novogranatensis*, 92,  $\alpha$  *quitensis*, 92; *paradoxa*, 92; *polycaulos*, 93; *saxosa*, 93, var. *cinerascens*, 93, var. *mearnsii*, 93; *scabra*, 92
- Asterotheca*, 276
- Atriplex*, *ambrosioides*, 5, *anthelmintica*, 5; *muralis*, 2
- Aylmeria*, 104

## B

- Bajan*, 12
- Ballarion*, 97
- Batidaceae of Panama, 66
- Batis maritima*, 66
- Bessera*, 64
- Bigelovia*, 91
- Bliton*, 12
- Blitum ambrosioides*, 5

*Blutaparon*, 35; *brevifolium*, 36; *repens*, 36  
*Boerhaavia*, 52; *adscendens*, 54; *atomaria*,  
 52; *coccinea*, 54, f. *parcehirsuta*, 54;  
*decumbens*, 54; *diffusa* var. *hirsuta*, 54,  
 var. *paniculata*, 54, var. *viscosa*, 54; *dis-*  
*color*, 52; *erecta thornberi*, 52; *ixodes*,  
 54; *laxa*, 54; *paniculata*, 54,  $\beta$  *subacuta*,  
 52; *polymorpha*, 54; *sonorae*, 54; *virgata*,  
 52; *viscosa*, 54, [var.] *apiculata*, 54, f.  
*oligadena*, 54  
*Boerhavia*, 52; *caribaea*, 54; *diandra*, 54;  
*diffusa*, 53, 54; *elongata*, 52; *erecta*, 52,  
 53; *hirsuta*, 54; *ramulosa*, 54; *squamata*,  
 54; *thornberi*, 52  
*Boberavia*, 52  
*Botrydium*, 2  
*Botrys*, 2; *ambrosioides*, 5; *anthelmintica*, 5  
*Brachystemma*, 91  
*Bragantia*, 47  
*Brandesia mexicana*, 45  
*Breweria*, 91  
*Bucbolzia ficoidea*, 41; *philoxeroides*, 43;  
*polygonoides*, 40,  $\beta$  *diffusa* 41,  $\alpha$  *erecta*,  
 41,  $\gamma$  *radicans*, 41  
 Bunting, George S., & James A. Duke: San-  
 angio: New Amazonian genus of Logani-  
 aceae, 269

## C

*Cadelaria*, 22; *indica*, 24, *sicula*, 24  
 "Caipa Schora," 327  
*Caraxeron*, 35; *vermicularis*, 36  
*Caryophyllaceae* of Panama, 90  
*Celosia*, 11; *argentea*, 11, 12; *coccinea*, 12;  
*cristata*, 12; *buttonii*, 12; *margaritacea*,  
 12; *marilandica*, 12; *pallida*, 12; *panicu-*  
*lata*, 19, 34; *pleiogyna*, 10; *pyramidalis*,  
 12; *tomentosa*, 21  
*Centrostachys*, 22; *aspera*, 24; *indica*, 24  
*Centunculus*, 95  
*Cephalotomandra*, 55; *fragrans*, 55, 56;  
*panamensis*, 55  
*Cerastium*, 95; *consanguineum*, 95; *glomer-*  
*atum*, 95; *nemorum*, 97; *viscosum*, 95,  
 96,  $\beta$  *consanguineum*, 95  
*Ceratocbilus grandiflorus*, 169; *oculatus*,  
 170  
*Ceratococca*, 73  
*Chamissoa*, 19; *altissima*, 19, 20, subsp. *albo-*  
*grisea*, 21, var. *densipaniculata*, 21, var.  $\beta$   
*glabrata*, 21, var. *grandispicata*, 21, f.  
*semispicata*, 21, var. *rubella*, 21,  $\gamma$  *densi-*  
*flora*, 21,  $\beta$  *laxiflora*, 21; *celosioides*, 22;  
*macrocarpa*, 19; *martii*, 21; *maximiliana*,  
 22, var.  $\beta$  *procumbens*, 22, var. *pubescens*,  
 22, f. *celosioides*, 22  
*Chenopodiaceae* of Panama, 1  
*Chenopodium*, 1; *ambrosioides*, 5, [var.]  
*anthelminticum*, 5; *anthelminticum*, 5;  
*carthagenense*, 2; *caudatum*, 14; *chilense*,

5; *guineense*, 2; *leptophyllum* var. *lepto-*  
*phyllodes*, 3; *murale*, 2,  $\beta$  *albescens*, 2,  
 $\gamma$  *carthagenense*, 2, [var.] *spissidentatum*,  
 3; *obovatum*, 5; *petiolare* var. *leptophyl-*  
*loides*, 3; *pratericola*, 3, 4, subsp. *prateri-*  
*cola* var. *leptophyllodes*, 3, var. *lepto-*  
*phyllodes*, 3; *querciforme*, 5; *retusum*,  
 5; *santa-maria*, 5; *spatulatum*, 5; *suffru-*  
*uticosum*, 5; *vagans*, 5

*Chetrophis*, 91

*Claytonia paniculata*, 87; *patens*, 87; *reflexa*,  
 87; *sarmentosa*, 87

*Columella*, 64*Coluppa*, 47*Cruzeta crassifolia*, 36

## "Cucumer marinus," 302

*Cucurbita* "foliis asperis size Zucha flore  
 luteo," 305; *pepo*, 302, 303, 305, 324

*Cucurbitaceae*, 296

*Cyathophora*, 334; *ciliata*, 338; *beterophylla*,  
 339; *picta*, 338

*Cyathotrachus*, 276

*Cyathula*, 25; *achyranthoides*, 27,  $\gamma$  *densi-*  
*flora*, 27,  $\beta$  *glabrescens*, 27; *geniculata*,  
 25; *prostrata*, 25, 26,  $\beta$  *achyranthoides*,  
 27

## D

*Desmochaeta achyranthoides*, 27; *densiflora*,  
 27; *prostrata*, 25; *uncinata*, 27

*Dichodon*, 95*Dimeandra*, 12*Dimeanthus*, 12*Diplochromium*, 84

## I

- Icones: A limited study, 291; botanical use  
 of the word, 291; chronological index of  
 icones of key species, 320; distinguishing  
 criteria, 292; earliest illustrations of key  
 species, 298; engravings, 308; index of  
 woodcuts derived from one source and  
 used by several authors, 322; the influ-  
 ence of the Linnaean system, 310; key  
 species of the Cucurbitaceae as limiting  
 factors in study, 296; later work in vari-  
 ous techniques, 314; lithographs, 313;  
 woodcuts in herbals of sixteenth and  
 seventeenth centuries, 307; woodcuts de-  
 rived from one source and used by several  
 authors, 301
